TITLE XI_TRANSITIONAL INSURANCE REFORM TITLE XII_TEMPORARY ASSESSMENT ON EMPLOYERS WITH RETIREE HEALTH BENEFIT COSTS Findings
SEC. 2. FINDINGS. The Congress finds as follows:

(1) Under the current health care system in the United States_ (A) individuals risk losing their health care coverage when they move, when they lose or change jobs, when they become seriously ill, or

when the coverage becomes unaffordable; (B) continued escalation of health care costs threatens the economy of the United States, undermines the international competitiveness of the Nation, and strains Federal, State, and local budgets; (C) an excessive burden of forms, paperwork, and bureaucratic procedures confuses consumers and overwhelms health care providers; (D) fraud and abuse sap the strength of the health care system; and (E) health care is a critical part of the economy of the United States and interstate commerce, consumes a significant percentage of public and private spending, and affects all industries and individuals in the United States. (2) Under any reform of the health care system_ (A) health insurance and high quality health care should be secure, uninterrupted, and affordable for all individuals in the United States; (B) comprehensive health care benefits that meet the full range of health needs, including primary, preventive, and specialized care, should be available to all individuals in the United States; (C) the current high quality of health care in the United States should be maintained; (D) individuals in the United States should be afforded a meaningful opportunity to choose among a range of health plans, health care providers, and treatments; (E) regulatory and administrative burdens should be reduced; (F) the rapidly escalating costs of health care should be contained without sacrificing high quality or impeding technological improvements; (G) competition in the health care industry should ensure that health plans and health care providers are efficient and charge reasonable prices; (H) a partnership between the Federal Government and each State should allow the State and its local communities to design an effective, high -quality system of care that serves the residents of the State; (I) all individuals should have a responsibility to pay their fair share of the costs of health care coverage; (J) a health care system should build on the strength of the employment -based coverage arrangements that now exist in the United States; (K) the penalties for fraud and abuse should be swift and severe; and (L) an individual's medical information should remain confidential and should be protected from unauthorized disclosure and use. PURPOSES. The purposes of this Act are as follows: (1) To guarantee comprehensive and secure health care coverage. (2) To simplify the health care system for consumers and health care professionals. (3) To control the cost of health care for employers, employees, and others who pay for health care coverage. (4) To promote individual choice among health plans and health care providers. (5) To ensure high quality health care. (6) To encourage all individuals to take responsibility for their health care coverage. (2) Improvements._The Board shall make such improvements in such methodology as may be appropriate to achieve the purposes described in subsection (b)(1).

(b) Methodology._

(1) Purposes._Such methodology shall provide for the adjustment of payments to regional alliance health plans for the purposes of_

(A) assuring that payments to such plans reflect the expected relative utilization and expenditures for such services by each plan's enrollees compared to the average utilization and expenditures for regional alliance eligible individuals, and

(B) protecting health plans that enroll a disproportionate share of regional alliance eligible individuals with respect to whom expected utilization of health care services (included in the comprehensive benefit package) and expected health care expenditures for such services are greater than the average level of such utilization and expenditures for regional alliance eligible individuals.

(2) Factors to be considered._In developing such methodology, the Board shall take into account the following factors:

(A) Demographic characteristics.

(B) Health status.

(C) Geographic area of residence.

(D) Socio-economic status.

(E) Subject to paragraph (5), (i) the proportion of enrollees who are SSI recipients and (ii) the proportion of enrollees who are AFDC recipients.

(F) Any other factors determined by the Board to be material to the purposes described in paragraph (1).

(5) Treatment of ssi/afdc adjustment._The Board is not required to apply the factor described in clause (i) or (ii) of paragraph (2)(E) if the Board determines that the application of the other risk adjustment factors described in paragraph (2) is sufficient to adjust premiums to take into account the enrollment in plans of AFDC recipients and SSI recipients.

(A) the alliance's estimate of the distribution of enrolled families in different risk categories (assumed in the application of risk factors under this subsection in making payments to regional alliance health plans), and

(B) the actual distribution of such enrolled families in such categories, the methodology under this subsection shall provide for an adjustment in the application of such methodology in the second succeeding year in a manner that would reduce, or increase, respectively, by the amount of such excess (or deficit) the total of such payments made by the alliance to all such plans.

(b) Mandatory Reinsurance._

(1) In general._The methodology developed under this section may include a system of mandatory reinsurance, but may not include a system of voluntary reinsurance.

of the methodology. The Board may thereafter reduce or eliminate such a system at such time as the Board determines that an adequate prospective payment adjustment for health status has been developed and is ready for implementation.

(3) Reinsurance system._The Board, in developing the methodology for a mandatory reinsurance system under this subsection, shall_

(A) provide for health plans to make payments to state-established reinsurance programs for the purpose of reinsuring part or all of the health care expenses for items and services included in the comprehensive benefit package for specified classes of high -cost enrollees or specified high -cost treatments or diagnoses; and

(B) specify the manner of creation, structure, and operation of the system in each State, including_

(c) Confidentiality of Information._The methodology shall be developed in a manner consistent with privacy standards promulgated under section 5102(a). In developing such standards, the Board shall take into account any potential need of alliances for certain individually identifiable health information in order to carry out risk-adjustment and reinsurance activities under this Act, but only to the minimum extent necessary to carry out such activities and with protections provided to minimize the identification of the individuals to whom the information relates. ``(1) Deductible._

``(A) In general._Payment shall be made under paragraph (2) only for expenses incurred by an individual for a covered outpatient drug during a calendar year after the individual has incurred expenses in the year for such drugs (during a period in which the individual is entitled to benefits under this part) equal to the deductible amount for that year.

``(B) Deductible amount._

``(i) For purposes of subparagraph (A), the deductible amount is_

``(I) for 1996, \$250, and

``(II) for any succeeding year, the amount (rounded to the nearest dollar) that the Secretary estimates will ensure that the percentage of the average number of individuals covered under this part (other than individuals enrolled with an eligible organization under section 1876 or an organization described in section 1833(a)(1)(A)) during the year who will incur expenses for covered outpatient drugs equal to or greater than such amount will be the same as the percentage for the previous year.

``(ii) The Secretary shall promulgate the deductible amount for 1997 and each succeeding year during September of the previous year.

``(C) Special rule for determination of expenses incurred._In determining the amount of expenses incurred by an individual for covered outpatient drugs during a year for purposes of subparagraph (A), there shall not be included any expenses incurred with respect to a drug to the extent such expenses exceed the payment basis for such drug under paragraph (3).

``(2) Payment amount._

``(A) In general._Subject to the deductible established under paragraph (1), the amount payable under this part for a covered outpatient drug furnished to an individual during a calendar year shall be equal to_

``(i) 80 percent of the payment basis described in paragraph (3), in the case of an individual who has not incurred expenses for covered outpatient drugs during the year (including the deductible imposed under paragraph (1)) in excess of the out -of-pocket limit for the year under subparagraph (B); and

``(ii) the amount of the administrative allowance (established under paragraph (5)) plus the product of the number of dosage units dispensed and the per unit estimated acquisition cost for the drug

product (determined under subparagraph (C)) for the period, whichever is less.

``(B) Payment limit for multiple source drugs without restrictive prescriptions._In the case of a drug that is a multiple source drug which does not have a restrictive prescription, the payment limit for a payment calculation period is equal to the amount of the administrative allowance (established under paragraph (5)) plus the product of the number of dosage units dispensed and the unweighted median of the unit estimated acquisition cost (determined under subparagraph (C)) for the drug products for the period.

Such program may include such elements as the Secretary determines to be necessary to assure that prescriptions (i) are appropriate, (ii) are medically necessary, and (iii) are not likely to result in adverse medical results, including any elements of the State drug use review programs required under section 1927(g) that the Secretary determines to be appropriate.

(a) Definitions. For purposes of this section

(1) Claim. The term ``claim'' means a claim for payment or provision of benefits under a health plan or a request for preauthorization of items or services which is submitted to a health plan prior to receipt of the items or services.

(2) Individual claimant. The term ``individual claimant'' with respect to a claim means any individual who submits the claim to a health plan in connection with the individual's enrollment under the plan, or on whose behalf the claim is submitted to the plan by a provider.

(3) Provider claimant. The term ``provider claimant'' with respect to a claim means any provider who submits the claim to a health plan with respect to items or services provided to an individual enrolled under the plan.

(b) General Rules Governing Treatment of Claims.

(1) Adequate notice of disposition of claim. In any case in which a claim is submitted in complete form to a health plan, the plan shall provide to the individual claimant and any provider claimant with respect to the claim a written notice of the plan's approval or denial of the claim within 30 days after the date of the submission of the claim. The notice to the individual claimant shall be written in language calculated to be understood by the typical individual enrolled under the plan and in a form which takes into account accessibility to the information by individuals whose primary language is not English. In the case of a denial of the claim, the notice shall be provided within 5 days after the date of the determination to deny the claim, and shall set forth the specific reasons for the denial. The notice of a denial shall include notice of the right to appeal the denial under paragraph (2). Failure by any plan to comply with the requirements of this paragraph with respect to any claim submitted to the plan shall be treated as approval by the plan of the claim.

(ii) serious impairment to bodily functions, or

(iii) serious dysfunction of any bodily organ or part, or

Any filing by the individual claimant or the provider claimant of additional matter requested by the plan pursuant to paragraph (2) shall be treated for purposes of this section as an initial filing of the claim.

(e) Additional Notice and Disclosure Requirements for Health Plans._In the case of a denial of a claim for benefits under a health plan, the plan shall include, together with the specific reasons provided to the individual claimant and any provider claimant under subsection (b)(1)_

(C) decreased by the percentage adjustment (if any) provided with respect to the regional alliance under subsection (d) (relating to adjustment for previous excess expenditures); and

(D) in the case of the year 2001, increased by a factor that the Board determines to reflect the ratio of (i) the actuarial value of the increase in benefits provided in that year under the comprehensive benefit package to (ii) the actuarial value of the benefits that would have been in such package in the year without regard to the increase.

(3) General health care inflation factor. _

(A) 1996 through 1999his part, the term ``general health care inflation factor'', for a year, means the percentage increase in the CPI (as specified under subsection (b)) for the year plus the following:

(ii) Failure of congress to act._If the Congress fails to enact a law specifying the general health care inflation factor for a year after 1999, the Board, in January of the year before the year involved, shall compute such factor for the year involved. Such factor shall be the product of the factors described in subparagraph (C) for that fiscal year.

(C) Factor._The factor described in this subparagraph for a year is 1 plus the following:

(c) Special Adjustment for Material Changes in Demographic Characteristics of Population._

(1) Adjustment for corporate alliance opt -in._

(A) In general._The Board shall develop a method for adjusting the regional alliance inflator factor for each regional alliance in order to reflect material changes in the demographic characteristics of regional alliance eligible individuals residing in the alliance area (in comparison with such characteristics for the previous year) as a result of one or more corporate alliances terminating an election under section 1313.

(B) Basis for adjustments._Adjustments under this paragraph (whether an increase or decrease) shall be based on the characteristics and factors used for making adjustments in payments under section 6124.

(2) Adjustment for regional trend compared to national trend._

(A) In general._The Board shall de velop a method for adjusting the regional alliance inflator factor for each regional alliance in order to reflect material changes in the demographic characteristics (including at least age, gender, and socio -economic status) and health status of regional alliance eligible individuals residing in the alliance area in comparison with the average change in such characteristics for such individuals residing in the United States. The adjustment under this paragraph shall be for changes not taken into account in the adjustment under paragraph (1).

(B) Neutral adjustment._Such method (and any annual adjustment under this paragraph) shall be designed to result in the adjustment effected under this paragraph for a year not changing the weighted average of the regional alliance inflation factors.

(3) Application._The Board shall provide, on an annual basis, for an adjustment of regional alliance inflation factors under this subsection using such method.

(d) Adjustment for Previous Excess Rate of Increase in Expenditures._

(1) In general._If actual weighted average accepted bid for a regional alliance for a year (as determined by the Board based on

actual enrollment in the first month of the year) exceeds the regional alliance per capita premium target (determined under section 6003(a)) for the year, then the regional alliance inflation factor_

(A) for the succeeding year shall be reduced by the product of_

(i) $\frac{1}{2}$ of the excess percentage (described in paragraph (3)) for the previous year, and

(ii) the adjustment factor (described in paragraph (2)(A)) for such succeeding year; and

(B) in the second succeeding year shall be reduced by the product of_

(i) $\frac{1}{2}$ of such excess percentage, and

(ii) the adjustment factor (described in paragraph (2)(B)) for such second succeeding year.

(2) Adjustment factors._

(A) Succeeding year._With respect to a succeeding year, the adjustment factor described in this subparagraph is 1 plus the regional alliance inflation factor for such year.

(B) Second succeeding year._With respect to a second succeeding year, the adjustment factor described in this subparagraph is the product of_

(i) 1 plus the regional alliance inflation factor for such year, and

(ii) 1 plus the regional alliance inflation factor for the previous year.

(C) No adjustment in factor considered._For purposes of subparagraphs (A) and (B), the regional alliance inflation factor for a year shall not take into account any adjustment under this subsection.

(3) Excess percentage._The excess percentage described in this paragraph for a year is the percentage by which_

(A) actual weighted average accepted bid (referred to in paragraph (1)) for a regional alliance for the year, exceeds

(B) the regional alliance per capita premium target (determined under section 6003(a)) for the year.

(e) Consultation Process._The Board shall have a process for consulting with representatives of States and regional alliances before establishing the regional alliance inflation factors for each year under this section. SEC. 6002. BOARD DETERMINATION OF NATIONAL PER CAPITA BASELINE PREMIUM TARGET.

(a) In General._Not later than January 1, 1995, the Board shall determine a national per capita baseline premium target. Such target is equal to_

(1) the national average per capita current coverage health expenditures (determined under subsection (b)),

(2) updated under subsection (c).

(b) Determination of National Average Per Capita Current Coverage Health Expenditures._

(1) In general._The Board shall determine the national average per capita current coverage health expenditures equal to_

(A) total covered current health care expenditures (described in paragraph (2)), divided by

(B) the estimated population in the United States of regional alliance eligible individuals (as determined by the Board as of the 1993 under subsection (c)(3)) for whom such expenditures were determined. The population under subparagraph (B) shall not include SSI recipients or AFDC recipients.

(2) Current health care expenditures._For purposes of paragraph (1)(A), the Board shall determine current health care expenditures as follows:

(A) Determination of total expenditures._The Board shall first determine the amount of total payments made for items and services included in the comprehensive benefit package (determined without regard to cost sharing) in the United States in 1993.

(B) Removal of certain expenditures not to be covered through regional alliances._The amount so determined shall be decreased by the proportion of such amount that is attributable to any of the following:

In making such determination, such expenditures shall be based on the estimated average cost for such services in 1993 (and not on private payment rates established for such services). In making such determination, the estimated amount of uncompensated care in 1993 shall be removed.

(D) Addition of health plan and alliance costs of administration._

(i) In general._The amount so determined and adjusted shall be increased by an estimated percentage (determined by the Board, but no more than 15 percent) that reflects the proportion of premiums that are required for health plan and regional alliance administration (including regional alliance costs for administration of income-related premium discounts and cost sharing reductions) and for State premium taxes (which taxes shall be

limited to such amounts in 1993 as are attributable to the health benefits to be included in the comprehensive benefit package).

(E) Decrease for cost sharing._The amount so determined and adjusted shall be decreased by a percentage that reflects (i) the estimated average percentage of total amounts payable for items and services covered under the comprehensive benefit package that will be payments in the form of cost sharing under a high cost sharing plan, and (ii) the percentage reduction in utilization estimated to result from the application of high cost sharing.

(3) Special rules._

(A) Benefits used._The determinations under this section shall be based on the comprehensive benefit package as in effect in 1996.

(B) Assuming no change in expenditure pattern._The determination under paragraph (2) shall be made without regard to any change in the pattern of expenditures that may result from the enrollment of AFDC recipients and SSI recipients in regional alliance health plans.

(C) Eligible individuals._In this subsection, the determination of who are regional alliance eligible individuals under this subsection shall be made as though this Act was fully in effect in each State as of 1993.

(c) Updating._

(2) Appropriate update factor._In paragraph (1), the appropriate update factor for a year is 1 plus the annual percentage increase for the year (as determined by the Administrator of the Health Care Financing Administration, based on actual or projected information) in private sector health care spending for items and services included in the comprehensive benefit package (as of 1996).

(3) Limit._The total, cumulative update under this subsection shall not exceed 15 percent. SEC. 6003. DETERMINATION OF ALLIANCE PER CAPITA PREMIUM TARGETS.

(a) Initial Determination._Not later than January 1, 1995, the Board shall determine, for each regional alliance for 1996, a regional alliance per capita premium target. Such target shall equal_

(1) the national per capita baseline premium target (determined by the Board under section 6002),

(3) adjusted by the adjustment factor for the regional alliance (determined under subsection (c)).

(b) Subsequent Determinations._

(1) Determination._Not later than March 1 of each year (beginning with 1996) the Board shall determine, for each regional

alliance for the succeeding year a regional alliance per capita premium target.

(2) General rule._Subject to paragraph (3), such target shall equal_

(A) the regional alliance per capita target determined under this section for the regional alliance for the previous year, and

(B) updated by the regional alliance inflation factor (as determined in section 6001(a)) for the year.

(c) Adjustment Factors for Regional Alliances for Initial Determination._

(1) In general._The Board shall establish an adjustment factor for each regional alliance in a manner consistent with this subsection.

(2) Considerations._In establishing the factor for each regional alliance, the Board shall consider, using information of the type described in paragraph (3), the difference between the national average of the factors taken into account in determining the national per capita baseline premium target and such factors for the regional alliance, including variations in health care expenditures and in rates of uninsurance and underinsurance in the different alliance areas and including variations in the proportion of expenditures for services provided by academic health centers in the different alliance areas.

(3) Types of information._The type of information described in this paragraph is_

(A) information on variations in premiums across States and across alliance areas within a State (based on surveys and other data);

(B) information on variations in per capita health spending by State, as measured by the Health Care Financing Administration;

(C) information on variations across States in per capita spending under the medicare program and in such spending among alliance areas within a State under such program; and

(D) area rating factors commonly used by actuaries.

(4) Application of factors in neutral manner._The application of the adjustment factors under this subsection for 1996 shall be done in a manner so that the weighted average of the regional alliance per capita premium targets for 1996 is equal to the national per capita baseline premium target determined under section 6002. Such weighted average shall be based on the Board's estimate of the expected distribution of alliance eligible individuals (taken into account under section 6002) among the regional alliances.

(5) Consultation process._The Board shall have a process for consulting with representatives of States and regional alliances before establishing the adjustment for regional alliances under this subsection.

(d) Treatment of Certain States._

(1) Non-alliance states._In the case of a State that is not a participating State or otherwise has not established regional

alliances, the entire State shall be treated under the provisions of this part as composing a single regional alliance.

(2) Changes in alliance boundaries._In the case of a State that changes the boundaries of its regional alliances (including the establishment of such alliances after 1996), the Board shall provide a method for computing a regional alliance per capita premium target for each regional alliance affected by such change in a manner that_

(A) reflects the factors taken into account in establishing the adjustment factors for regional alliances under subsection (c), and

(B) results in the weighted average of the newly computed regional targets for the regional alliances affected by the change equal to the weighted average of the regional targets for the regional alliances as previously established. SEC. 6004. ALLIANCE INITIAL BIDDING AND NEGOTIATION PROCESS.

(a) Bidding Process._

(1) Obtaining bids._

(A) In general._Not later than July 1 before the first year, and not later than August 1 of each succeeding year, the regional alliance shall have obtained premium bids from each plan seeking to participate as a regional alliance health plan with respect to the alliance in the following year.

(B) Disclosure._In obtaining such bids, a regional alliance may determine to disclose (or not to disclose) the regional alliance per capita premium target for the regional alliance (determined under section 6003) for the year involved.

(C) Condition._Each bid submitted by a plan under this subsection shall be conditioned upon the plan's agreement to accept any premium payment reduction that may be imposed under section 6011.

(2) Negotiation process._Following the bidding process under paragraph (1), a State may provide for negotiations with health plans relating to the premiums to be charged by such plans. Such negotiations may result in the resubmission of bids, but in no case shall a health plan resubmit a bid that exceeds its prior bid.

(3) Legally binding bids._All bids submitted under this subsection must be legally binding with respect to the plans involved.

(4) Acceptance._The final bid submitted by a plan under this subsection shall be considered to be the accepted bid, except as provided in subsection (e).

(5) Assistance._The Board shall provide regional alliances with such information and technical assistance as may assist such alliances in the bidding process under this subsection.

(b) Submission of Information to Board._By not later than September 1 of each year for which bids are obtained under subsection (a), each regional alliance shall submit to the Board a report that discloses_

(1) information regarding the final bids obtained under subsection (a) by the different plans;

(2)(A) for the first year, any information the Board may request concerning an estimation of the enrollment likely in each such plan of alliance eligible individuals who will be offered enrollment in a health plan by alliance in the first year, or

(B) for a succeeding year, the actual distribution of enrollment of alliance eligible individuals in regional alliance health plans in the year in which the report is transmitted; and

(3) limitations on capacity of regional alliance health plans.

(c) Computation of Weighted Average Accepted Bid._

(1) In general._For each regional alliance the Board shall determine a weighted average accepted bid for each year for which bids are obtained under subsection (a). Such determination shall be based on information on accepted bids for the year, submitted under subsection (b)(1), and shall take into account, subject to paragraph (2), the information on enrollment distribution submitted under subsection (b)(2).

(2) Enrollment distribution rules._In making the determination under paragraph (1) for a regional alliance, the Board shall establish rules respecting the treatment of enrollment in plans that are discontinued or are newly offered.

(d) Notice to Certain Alliances._

(1) In general._By not later than October 1 of each year for which bids are obtained, the Board shall notify a regional alliance_

(A) if the weighted average accepted bid (determined under subsection (c)) for the alliance is greater than the regional alliance per capita premium target for the alliance (determined under section 6002) for the year, and

(B) the reduced weighted average accepted bid for the alliance.

(2) Notice of premium reductions._If notice is provided to a regional alliance under paragraph (1), the Board shall notify the regional alliance and each noncomplying plan of any plan payment reduction computed under section 6011 for such a plan and the opportunity to voluntarily reduce the accepted bid under subsection (e) in order to avoid such a reduction.

(e) Voluntary Reduction of Accepted Bid (Final Accepted Bid)._After the Board has determined under subsection (c) the weighted average accepted bid for a regional alliance and the Board has determined preliminary plan payment reductions, before such date as the Board may specify (in order to provide for an open enrollment period), a noncomplying plan has the opportunity to voluntarily reduce its accepted bid by the amount of the plan payment reduction that would otherwise apply to the plan. Such reduction shall not affect the amount of the plan payment reduction for any other plan for that year. SEC. 6005. STATE FINANCIAL INCENTIVES.

(a) Election._Any participating State may elect to assume responsibility for containment of health care expenditures in the State consistent with this part. Such responsibility shall include submitting annual reports to the Board on any activities undertaken by the State to contain such expenditures.

(b) Financial Incentive._In the case of a State that has made an election under subsection (a), if Board determines for a particular year (beginning with the first year) that the statewide weighted average of the reduced weighted average accepted bids (based on actual average enrollment for the year), for regional alliances in the State, is less than the statewide weighted average of the regional alliance per capita premium targets (based upon such enrollment) for such alliances for the year, then the amount of the State maintenance -of-effort payment under section 9001(b), for the following year, shall be reduced by $\frac{1}{2}$ of the product of_

(1)(A) the amount by which the amount of such target exceeds the amount of such premium, divided by (B) the amount of such target; and

(2) the total of the amount of the Federal payments made in that particular year to regional alliances in the State under subtitle B of title IX. SEC. 6006. RECOMMENDATIONS TO ELIMINATE REGIONAL VARIATIONS IN ALLIANCE TARGETS DUE TO VARIATION IN PRACTICE PATTERNS; CONGRESSIONAL CONSIDERATION.

(c) Regional Variations._

(1) Information._The advisory commission shall provide the Board, States, and regional alliances with information about regional differences in health care costs and practice patterns.

(2) Methods for elimination of regional variation due to practice pattern._The advisory commission shall examine methods of eliminating variation in regional alliance per capita premium targets due to variation in practice patterns, not due to other factors (such as health care input prices and demographic factors), by 2002.

(3) Methods for reducing regional variation in premium payments for afdc and ssi recipients due to historical variation in characteristics of state medicaid plans._The advisory commission shall examine methods of reducing the variation in Federal and State payments under sections 9011 and 9101. In addition to the

factors considered in paragraph (2), the commission shall examine methods of reducing variation due to historical differences in the rates of reimbursement to providers and in the amount, duration, and scope of benefits covered under State medicaid plans.

(4) Methods for reduction of regional variation in state maintenance-of-effort payments for non-cash assistance recipients._The advisory commission shall study the reasons for variation among State in the level of maintenance of effort payments for non-cash assistance recipients and shall examine methods of reducing variation across States in the level of maintenance of effort payments compared to the population of the State. The commission shall link consideration of the variation in premium targets under paragraph (2) with the variation in State and Federal payments described in this paragraph.

(5) Other factors._The advisory commission shall examine methods of reducing variations in spending among States for health care services that are attributable to historical differences.

(d) Recommendations to Board._The advisory commission shall submit to the Board a report that specifies_

(B) Reducing the variation in State payments under sections 9001 and 9011 (taking into account any interaction between these payments), in a manner that is budget neutral with respect to total government payments and payments by the Federal Government. In making recommendations in subparagraph (B), the Board shall consider the fiscal capacity of the States.

(2) Subsequent report._If a joint resolution described in subsection (f) does not become law, the Board shall submit to Congress revised detailed recommendations respecting the specific method to be used to achieve the elimination of such variation by 2002. Such recommendations shall be submitted not later than 90 days after the date such resolution is disapproved by either House (or vetoed by the President) or, if earlier, 150 days after the date of submission of the recommendations under paragraph (1).

(f) Congressional Consideration._

(1) In general._Detailed recommendations submitted under paragraph (1)(A) or (1)(B) or (2) of subsection (e) shall apply under this subtitle only if a joint resolution (described in paragraph (2)) approving such recommendations is enacted, in accordance with the provisions of paragraph (3), before the end of the 60-day period beginning on the date on which such

recommendations were submitted. For purposes of applying the preceding sentence and paragraphs (2) and (3), the days on which either House of Congress is not in session because of an adjournment of more than three days to a day certain shall be excluded in the computation of a period.

(2) Joint resolution of approval._A joint resolution described in this paragraph means only a joint resolution which is introduced within the 10 -day period beginning on the date on which the Board submits recommendations under paragraph (1)(A), (1)(B), or (2) of subsection (e) and_

(B) the matter after the resolving clause of which is either of the following 2 clauses:

(i) For recommendations under paragraph (1)(A): ``That Congress approves the recommendations of the National Health Board concerning elimination of regional variation in regional alliance per capita premium targets under subtitle A of title VI of the Health Security Act, as submitted by the Board on _G7XXXXXXX.', the blank space being filled in with the appropriate date; or

(ii) For recommendations under paragraph (1)(B): ``That Congress approves the recommendations of the National Health Board concerning reducing the variation in State payments under sections 9001 and 9011 of the Health Security Act, as submitted by the Board on _G7XXXXXXX.', the blank space being filled in with the appropriate date; and

(C) the title of which, respectively, is either of the following:

(i) For recommendations under paragraph (1)(A): ``Joint resolution approving recommendations of the National Health Board concerning elimination of regional variation in regional alliance per capita premium targets under subtitle A of title VI of the Health Security Act, as submitted by the Board on _G7XXXXXXX.', the blank space being filled in with the appropriate date; or

(B) any reference to the date on which the President transmits a report shall be deemed a reference to the date on which the Board submits a recommendation under paragraph (1)(A), (1)(B), or (2) of subsection (e). SEC. 6007. REFERENCE TO LIMITATION ON ADMINISTRATIVE AND JUDICIAL REVIEW OF CERTAIN DETERMINATIONS.

For limitation on administrative and judicial review of certain determinations under this part, see section 5232. Subpart B_Plan and Provider Payment Reductions to Maintain Expenditures within Targets SEC. 6011. PLAN PAYMENT REDUCTION.

(a) Plan Payment Reduction._In order to assure that payments to regional alliance health plans by a regional alliance are consistent with the applicable regional alliance per capita target for the alliance (computed under this subtitle), each noncomplying plan (as defined in subsection (b)(2)) for a year is subject to a reduction in plan payment (under section 1351) by the amount equal to plan payment reduction specified in subsection (c) for the year.

(b) Noncomplying Alliance and Noncomplying Plan Defined._ In this part:

(1) Noncomplying alliance._The term ``noncomplying alliance'' means, for a year, a regional alliance for which the weighted average accepted bid (computed under section 6004(c)) exceeds the regional alliance per capita target for the year.

No plan shall be a noncomplying plan for a year before the first year in which the plan is offered by a regional alliance.

(c) Amount of Plan Payment Reduction._

(1) In general._The amount of the plan payment reduction, for a noncomplying plan offered by an alliance, is the alliance -wide reduction percentage (as defined in paragraph (2)) of the excess bid amount (as defined in paragraph (3)).

(B) Plan proportion of alliance excess bid amount described._

(i) In general._The ``plan proportion of alliance excess bid amount'' described in this clause, for a noncomplying plan, is the product of_

(I) the excess bid amount (as defined in paragraph (4)) for the plan, and

(II) the plan enrollment proportion (as defined in clause (ii)) for the plan.

(ii) Plan enrollment proportion._In clause (i)(II), the term ``plan enrollment proportion'' means, with respect to a health plan offered by a regional alliance, the total enrollment of alliance eligible individuals enrolled in such plan expressed as a percentage of the total enrollment of alliance eligible individuals in all regional alliance plans offered by the alliance. Such proportion shall be computed based on the information used in computing the weighted average accepted bid for the alliance under section 6004(c)(1).

(3) Excess bid amount._In this subsection, the ``excess bid amount'', with respect to a noncomplying plan for a year, is the amount by which_

(i) the accepted bid for the year (not taking into account any voluntary reduction under section 6004(e)), exceeds

(ii) the maximum complying bid (as defined in subsection (d)) for the plan for the year.

(d) Maximum Complying Bid._

(1) First year._In this part, subject to paragraph (3), for the first year, the ``maximum complying bid'' for each plan offered by a regional alliance, is the regional alliance per capita premium target for the alliance (determined under section 6002) for the year.

(2) Subsequent years. _In this part, subject to paragraph (3), for a subsequent year, the ``maximum complying bid'', for a plan offered by an alliance for a year, is the sum of the following:

(B) Alliance -wide inflation allowance._The amount by which_

(i) regional alliance per capita premium target for the year, exceeds

(ii) such target for the previous year, or, if less, the weighted average accepted bid (computed under section 6004(c)(1)) for such year.

(3) Special rules for new plans._

(A) In general._Subject to subparagraph (B), in the case of a plan that is first offered by a regional alliance in a year after

the first year the maximum complying bid shall be the regional alliance per capita premium target for the year.

(B) Authority._The Board or a State may establish rules to modify the application of subparagraph (A) for regional alliance health plans in the State in order_

(i) to prevent abusive premium practices by entities previously offering plans, or

(ii) to encourage the availability of all types of plans in the State and to permit establishment of new plans. SEC. 6012. PROVIDER PAYMENT REDUCTION.

``(C) The limitation on out-of-pocket costs established pursuant to subparagraph (A) may be adjusted for years after 1995 by an appropriate economic index, as determined by the Secretary of Defense.

(C) Application of other factors._

(i) In general._In the case of a change in premium rates related to a reason described in subparagraph (B), (C), or (D) of paragraph (1), the change in premium rates with respect to each health insurance plan in each sector shall reflect the rate factors specified under paragraph (3) applicable to the reason as applied to the current premium charged for the health insurance plan. (C) Geographic application._Subparagraphs (A) and (B)_

(i) may be applied on a national level, or

(ii) may vary based on geographic area, but only if (I) such areas are sufficiently large to provide credible data on which to calculate the variation and (II) the variation is due to reasonable factors related to the objective differences among such areas in costs and utilization of health services.

(D) Exceptions to accommo date state rate reform efforts._Subparagraphs (A) and (B) shall not apply, in accordance with guidelines of the Secretary, to the extent necessary to permit a State to narrow the variations in premiums among health insurance plans offered by health insurers to similarly situated groups or individuals within a sector.

(2) Percentage._The Secretary shall specify, for each 12 -month period beginning after the date of the enactment of this Act, a percentage that will apply under paragraph (1).
