

ESCAPE HIPAA “ADMINISTRATIVE SIMPLIFICATION”

Even if you've already filed an extension...

Before you sign a “business associate” agreement with your hospital...

And before you spend tens of thousands of dollars for new computers, seminars, and more worthless compliance advice...

***STOP HIPAA DEAD IN ITS TRACKS!
Don't comply – escape!***

HIPAA does not apply to everyone!

But don't expect those selling compliance materials to advertise it. And don't wait for medical societies, hospitals or the government to tell you.

You can qualify for this exemption and kiss HIPAA regulations goodbye!

No legal paperwork is required to qualify for this exemption.

No approvals are needed; there are no fees to be paid. Join your peers at AAPS in taking the “Country Doctor Escape Route” without the huge new regulatory costs and government assault on privacy.

We've prepared all the information you need to exercise your right to remain exempt from HIPAA.

The information is FREE! Return this card, call, or visit our website.

There are no compliance officers on our staff, and we do not peddle coding manuals. Like you, we are doctors struggling under the regulations that others profit from.

- Please send me “HIPAA Covered v. Non Covered Entities” via: __mail __email __fax
- I would describe the HIPAA Rules as: (read other anonymous comments online at www.aapsonline.org)
