Current legislation pending in Congress will have a profound effect on the Nevada economy and your small business. Congress has proposed legislation that would fundamentally change the way our health care system operates and place the financial burdens on small businesses. Congress is also poised to place a further burden on small businesses and threaten thousands of jobs through pending energy legislation. This summit will help Nevada's small business owners understand these proposals so they can effectively communicate their concerns to Nevada's Congressional delegation.

The Small Business Summit is free, and no RSVPs are necessary. Brady Industries is located south of the I -215 between South Jones Blvd. and South Decatur Blvd. Turn on West Badura Ave. Lindell runs south from West Badura at the mid-point between South Jones and South Decatur.
